1. The group of buildings located approximately six kilometers from Mis along the railroad line toward Pirot, is called the RR Fabrica. This factory has recently been completed and consists of four or six buildings constructed of concrete. There is a railroad siding and a loading platform at the factory.
2. The buildings were constructed by engineers who came from the Russian occupied zone of Germany, as well as from other satellite nations. It has been publicly announced that the factory would manufacture radios and radio parts but several of the employees state that the factory will produce gas masks and poisonous gases.
3. A sketch indicating the location of the plant is attached.
